### 1. Create daily goals / to-dos – daily check-ins

- Project goals broken down into achievable tasks

### 2. Prioritize

- Time management succeeds/fails in terms of how we help set priorities
- Consolidate tasks
- Analyze tasks AND stack rank – you can't have two tasks that are #1!

## 02. Productivity Hacks

### 3. Do: Getting in the Zone

- Focus on most important (priority) tasks
- Time block
- Carve time for distractions. In the meantime, turn them off!!
- Mobile device-free zone
- Find an accountability partner (within your team or outside) – touch base daily!

## 02. Productivity Hacks

### 4. Revisit/Revise -> Move Forward

- Timing: what time of day are you most productive?
- Planning Fallacy: what did I actually achieve in the allotted time period?
- Plan for tomorrow at the end of each day!
